

*SKILLS ARE THE WINGS*

**HUMANBIRD**

## Introduction

This pandemic has impacted a lot of people working in corporations. Many of them were fired, adding towards the unemployed population. We should now find a way by which we can get a job in other domains as well if we are expert in it and degree should not become a barrier for that to increase the job opportunity for all.

Our work includes providing jobs potential cand

- To provide a platform wherein candidate can showcase their skills to get the job irrespective of their qualification in the domain.
- To provide companies a varied option to choose candidates from the group where candidates have more hands-on experience in the domain by evaluating their skills practically.
- To provide job opportunities to people from rural areas or to them as well who are not able to complete their degree because of financial issues but gained knowledge from free sources and prove themselves better than candidates with degrees.

## Vission

- Provide an employment opportunity on the basis of skills and experience rather than a degree
- Provide a platform from where companies can choose the perfect fit for the role of their company looking forward to the candidate's practical experience and expertise.

## About the company

The company is dedicated to providing job opportunities on the basis of the skills and experience of the candidate irrespective of their degree or recommendation. It will also provide an opportunity to the companies as well so that they can recruit candidates on the basis of their skills so that every single person could get an opportunity to compete on the same ground if the degree factor is removed from the skills based jobs.
