BATCH 2018-22

- * The placement of **2018-22 batch** students has been sensational with exceptionally high performance owing to the diaphanous venture put in by the final year students, backed up by the meticulous support from the TPO, Prof(Dr.)Ghanshyam.
- * Despite the temperamental obstructions imposed by the pandemic, the batch broke all records of the previous year's placement statistics setting a new benchmark for the batches to come. By far a total of 47 companies have already marked their visits to the campus with more to come.
- * A total of more than **641** students have been successful in receiving campus placement offers in ostensible firms like **TATA Steel, Amazon, Google, Vedanta, Schlumberger, TCS Digital, Hindustan Unilever Ltd., Deloitte, Samsung** and many more.
- * Highest CTC of **28 LPA** by **Google**.
- * Whereas the average Package for the entire batch was around **6.5 LPA**.
- * Owing to the pandemic the entire recruitment drive took place via the online mode considering it as the "new normal situation". With such astounding performance, students have again given a testament to the fact that **BITians are indeed second to none**.
